Don't miss these great speakers!

"The what, how and why of how the DISS system is scheduled to be rolled out" -Nick Levasseur

"Let's talk about the eight different types of Red Teaming, the artifacts that get generated for customers, both internal and external, and how they are used to inform network security risk decisions" -Paul Keener

"Do you have a big idea that simply must be shared?" -Jason Jordan

"How to team with law enforcement to take your program to the next level" -Joshua Dafoe

The next ISAC event is September 27, 2018!
